BUSINESS EXECUTION SOFTWARE

CORE Product Configuration Training

& Now....

Results!

Congratulations Luke!

For **successfully completing** the CORE Training Program

Course Duration: 3 weeks
(July 9th – July 27th)

Your Final Score: 100%

Instructor's Overall Comments:

Luke,

Congratulations on successfully completing the CORE training program!

I really enjoyed your team's presentation. Your configurations were complete and accurate according to the specifications required. I was especially impressed by the positioning of the presentation along with your detailed explanations of the configurations and system benefits (not just merely pointing them out). Your attention to the customer during the presentation was evident as you navigated through the requirements, and no one left with any confusion about what they saw and how it worked.

It was a pleasure having you in the class and I appreciated your participation in the Jam group and check-in meetings. Enjoy applying your new knowledge to your upcoming projects!

Congratulations again on completing the training successfully.

Regards,

Megan
